

PROWEBE TRANSFORMERS
Reliable partner, Reliable products

COMPANY PROFILE

At Prowebe we intend to be the best manufacturers and suppliers of Mini Substations, Distribution, Power, Traction and Specialised transformers in SA and Abroad.

We have a specialised team of designers and engineers with many years of experience, ensuring accurate product design and Pre manufacturing modelling for specialised products.

PHILOSOPHY

Becoming your strategic and reliable partner in honesty and transparency, by providing our customers with the best possible solution as per specification requirement.

QUALITY & PERFORMANCE

Quality and performance at Prowebe goes hand in hand and is valued, we refer not only to performance and quality of products but also to the level of service.

Our dedicated team strives to deliver the best possible service. Our product is five minutes away. At Prowebe quality is not an act but a habit.

CORE VALUES

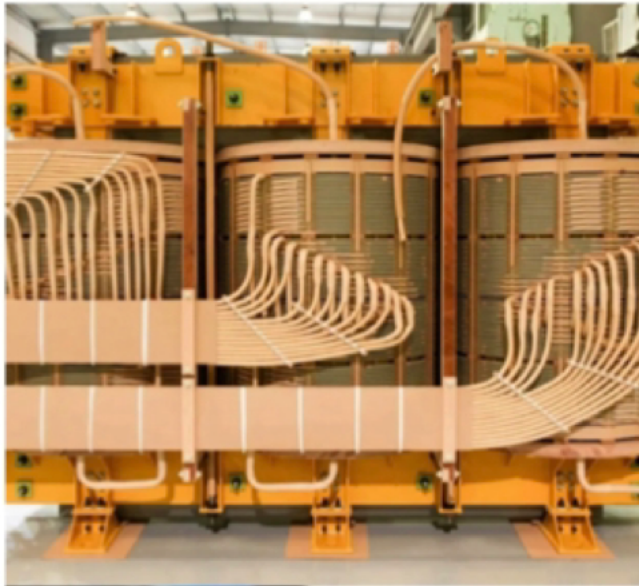

1. Superior customer service
2. Team work
3. Integrity
4. Commitment to employees
5. Safety excellence
6. Innovation

A B-BBEE COMPANY

Prowebe understands the importance of black empowerment from the concept of the company. Our company regards this as a vital element of our business, Prowebe's B-BBEE status is not only proof of abiding to the laws and regulations of South Africa but also shows our dedication of developing South African people.

TRANSFORMERS

Prowebe will strive to provide quality transformers to the industry. All transformers manufactured by Prowebe will be tested in accordance with SANS780 to ensure that we supply our customers with market leading quality transformers up to 45MVA.
